Workshop Description

This workshop is designed to explore the practical application, techniques and best practices of Air Traffic Flow Management. Participants will receive informative briefings and engage in open discussions with subject matter experts, review operational scenarios, and be afforded the opportunity to visit the Air Traffic Control System Command Center operational floor for familiarization. The principal methods of instruction are lectures supplemented by Traffic Flow Management System (TFMS) tools and discussion.

Target Audience

This ATFM workshop is designed for FAA personnel and NAS Stakeholders involved with the development and or impact of ATCSCC TMI initiatives. Candidates for this workshop may include CPC's, staff specialist, FLM's, TMU personnel, airline dispatchers, airline representatives, military personnel, weather personnel, and other personnel performing air traffic flow management related functions within the NAS.

To register please contact Ed.Corcoran@faa.gov, 540.422.4547

ATCSCC Security and Parking

Please use the inside gates daily for your ingress/egress. If you are not an FAA employee, you will park in the visitor's lot, sign in at the guardhouse, and receive an "Escort Required" badge. You will then be escorted to the facility door to meet the POC.

Dining

We have vending machines with cold drinks, light meals, and snacks. You will have the option for lunch delivery from a nearby café or off-campus dining.

POC

If you have any questions concerning this event please contact Ed Corcoran, 540.422.4547, Ed.Corcoran@faa.gov.
