

Objectives Review

- We have reached the end of our briefing.
- The purpose of today's briefing was to answer, "What is the JATOC and how does the JATOC function?"
- To answer these questions, we walked through the following objectives:
 - to define the JATOC as an operational organization established to improve communication and coordination throughout the ATO during a significant incident in the NAS.
 - The JATOC is comprised of multiple functional elements and two new organizational roles; the ATO Watch Officer (AWO) and the ATO Incident Director (AID).
 - The functional elements belong to multiple ATO service units and subordinate offices.
